

...ONDER DRAAI DIE DUIWEL ROND ...

The drawings are reflecting on the hidden danger that lurks just below the waterline—and for too long, unfortunately, below human consciousness. The attempts at correcting imbalance inflicted on nature are undermined by conscious and unconscious behaviour that bedevils the process.

The difference between global warming and the coronavirus is that the Covid-19 virus is QUICK and DEADLY —the results are apparent IMMEDIATELY.

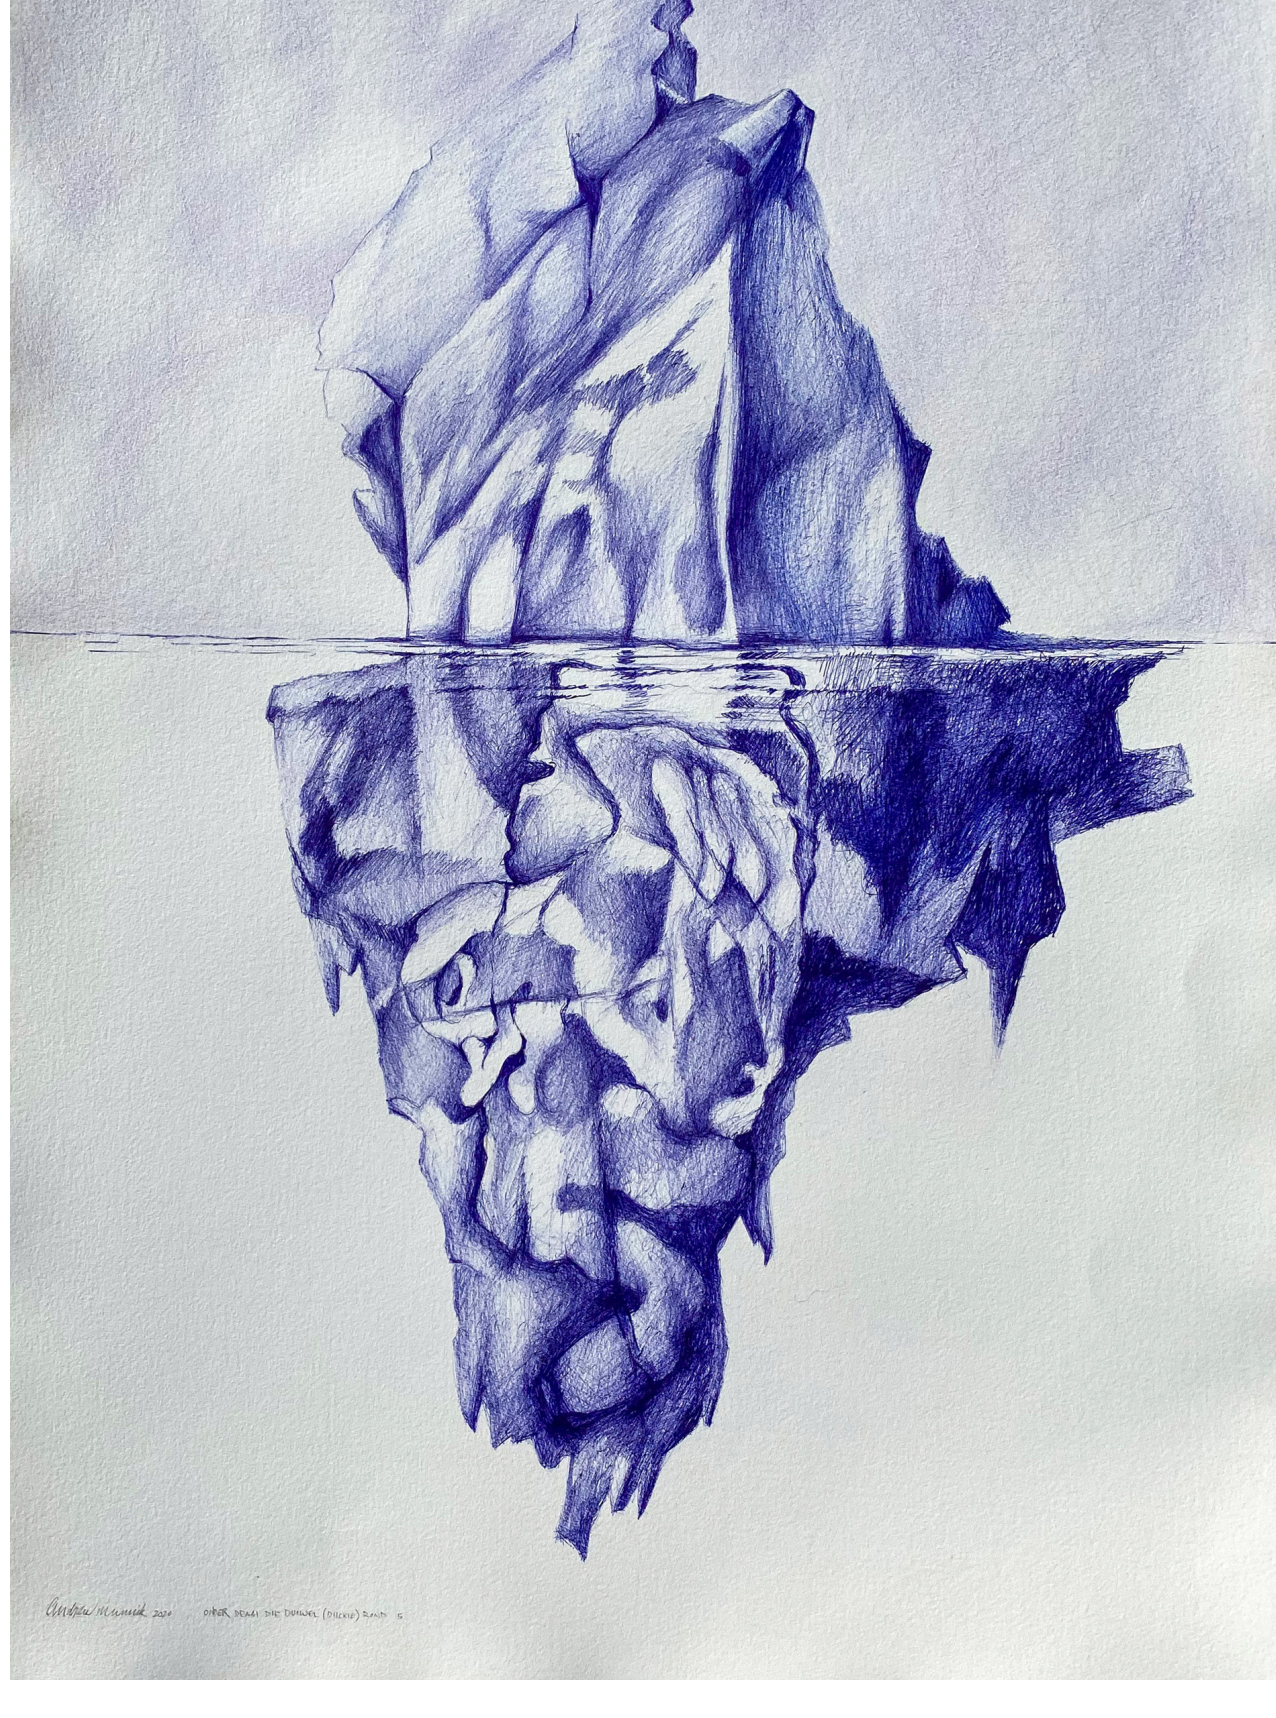

With global warming, we behave as if we have all the time in the world.
